FULL-STACK ENGINEER — REACT NATIVE & NEXT.JS — CLOUD INFRASTRUCTURE

Full-Stack Developer with 3+ years of experience shipping production web and mobile applications. Delivered end-to-end platforms serving 400+ active users across maritime SaaS, NGO hiring, and mental health domains. Proficient in migrating monoliths to containerized microservices on AWS with horizontal scaling.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python

Frontend: React.js, Next.js, React Native, Tailwind CSS, Expo

Backend: Node.js, Express.js, WebSockets, REST APIs, Server Actions

Databases: PostgreSQL, MongoDB, Neon, Prisma ORM, DB Sharding

DevOps & Cloud: AWS (EC2, ECS, ELB), Docker, Kubernetes, Vercel, CI/CD, Linux

Other: Git, Stripe, Razorpay, Auth.js, JWT, RBAC, Web Scraping

CS Fundamentals: Data Structures & Algorithms (200+ solved) — System Design — Microservices Patterns

WORK EXPERIENCE

Logician Media

Remote

Full-Stack Engineer

Jul 2025 – Jan 2026

- Architected and built JustBeCause Network from scratch — a role-based hiring platform for NGOs now serving 413 users and 4,500+ job listings in production.
- Engineered microservices architecture with Docker containers deployed to AWS ECS behind a load balancer, migrating from Vercel to support horizontal scaling for millions of concurrent users.
- Integrated Stripe payment gateway with subscription tiers, real-time WebSocket notifications, and Auth.js with multi-role RBAC (NGOs, volunteers, admins).
- Built automated job ingestion pipelines integrating external portals, increasing platform job volume by 3x within first month.

SimbaQuartz

Punjab, India

Full-Stack Engineer

Mar 2024 – Jun 2025

- Developed core modules of Sailors Platform — a maritime SaaS serving seafarers and employers with crew profiles, job postings, and document management.
- Designed and optimized PostgreSQL schemas and REST APIs handling concurrent requests across web and mobile clients.
- Collaborated in a cross-functional team delivering full-stack features — from database design to React component implementation and deployment.

Punjab Tech

Remote

Frontend Engineer (Intern)

Aug 2023 – Feb 2024

- Delivered responsive UI components across multiple client projects using React.js and Tailwind CSS, rotating between 4+ active codebases.

PROJECTS

HiringBull | *React Native, Node.js, PostgreSQL, AWS EC2, Neon* | Live

2025

- Built cross-platform mobile app and backend delivering curated job notifications within 10 minutes of posting globally.
- Engineered web scrapers aggregating jobs from multiple sources, implemented database sharding for query performance, and deployed backend on AWS EC2 with Neon PostgreSQL.
- Published on Google Play Store — handled full submission, review compliance, and production release cycle.

MindSets | *React Native, Express.js, PostgreSQL* | Play Store

2024

- Developed mental health app connecting users with verified coaches — featuring scheduling, in-app messaging, and session tracking with 50+ active coaches onboarded.

EDUCATION

Guru Nanak Dev University (GNDU), Amritsar

Master of Information Technology

2021 – 2023

Guru Nanak Dev University (GNDU), Amritsar

Bachelor of Computer Applications

2018 – 2021
